

## Server Email Setup on Android

- 1) Go to the Android Home screen and open an **Email** or **Gmail** app (This setup may vary depending on the model and version).
- 2) If you already have other email accounts in this app, go to **Menu** from the top 3 line and Tap **Settings** and click **Add Account**.
- 3) Tab **Other** into Setup email section.
- 4) Enter your email address then click **Manual Setup** button.
- 5) Select **SMTP account**.
- 6) Enter the following details on incoming server settings screen:

Username: **Your full email address is your username**  
Password: **Your account password**  
SMTP server: **mail.YourDomain.com**  
Security type: **SSL/TLS**  
Port: **465**  
Without **SSL/TLS** Port: **25 (use if unable to connect using port 465)**

Click **Next** Button.

- 7) Enter the following details on outgoing server settings screen:

SMTP server: **mail.YourDomain.com**  
Security type: **SSL/TLS**  
Port: **993**  
Without **SSL/TLS** Port: **143 (use if unable to connect using port 993)**

Click **Next** Button.

- 8) Select **Email check frequency** (preferably every 15 minutes).
- 9) Give your account a name and press **Done**.
- 10) Congratulations!
