Yandex Email Setup for Android

1) Go to the Android Home screen and open an **Email** or **Gmail** app (This setup may vary depending on the model and version).

2) if you already have other email accounts in this app, go to **Menu** from the top 3 line and Tap **Settings** and click **Add Account**.

3) Tab **Other** into Setup email section.

4) Enter your email address then click **Manual Setup** button.

5) Select **SMTP account**.

6) Enter the following details on incoming server settings screen.

   Username: **Your full email address is your username**
   Password: **Your account password**
   SMTP server: **smtp.yandex.com**
   Security type: **SSL**
   Port: **587**

   Click **Next** Button.

7) Enter the following details on outgoing server settings screen.

   SMTP server: **imap.yandex.com**
   Port: **993**
   Security type: **SSL**

   Click **Next** Button.

8) Select **Email check frequency** (preferably every 15 minutes).

9) Give your account a name and Press **Done**.

10) Congratulations!
